Item 1A. Risk Factors

Risk Disclosures (Page 9): The Company's business, results of operations, and financial condition can be adversely affected by various risks, including global economic conditions, supply chain disruptions, geopolitical conflicts, and technological obsolescence.

Global macroeconomic volatility, inflationary pressures, and changes in consumer purchasing power could reduce demand for premium consumer hardware and digital subscription services.

The Company depends on single-source suppliers and advanced semiconductor fabrication facilities in East Asia for critical proprietary components.
